DS Parent Portal

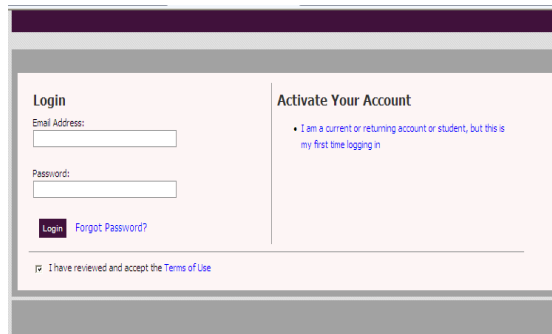

The Parent Portal is now available to all current DS families. Access your account by creating a user name and password.

Our online portal is handled using DanceWorks, the Dance Spectrum's online dance program. Please let us know if you encounter any issues using it, as we work out some of the bugs that are inherent when using software for the first time.

The Parent Portal provides you with 24/7 access to your child's information. With a Parent Portal account, you may log on at any time to view information regarding your families account, child (s) class schedule, tuition information, and ability to make payments and register for classes online.

Log on for Existing Accounts

- To access your account for the first time, go to www.dancespectrum.net and click on the link for the Parent Portal on the homepage.
- A new window will open with Customer Access by Akada Software, Inc (if your pop-up blocker is on it might inhibit the new window from opening.) You will be asked to enter the primary e-mail address for your child's account (this is what you gave us at the time of registration).
-

Log on for Existing Accounts

- You will be sent a temporary password to your e-mail address.
- You simply log on with your e-mail address and the temporary password where you will then be able to create a new password.

Once you've created your password you will be able to log in to your account with your e-mail and password.
